# Support & Training

Twisted Pair works closely with our global partner and customer base to ensure that their WAVE deployments are fully supported.

**Life is unpredictable. That's why Twisted Pair provides 24 x 7 x 365 live accessibility to technical support resources.**

We understand that our customers' networks are often mission-critical to their organization and as such, it is our goal to provide exceptional support services when and where needed.

---

# WAVE Certified Training

Twisted Pair offers in-depth WAVE training for its partners and customers. The courses are a mixture of lecture and practical exercises to ensure that each participant understands the underlying theory and practical application of WAVE software technology.

**Sharpen your technical skills and maximize your investment in WAVE software technology with training.**

Twisted Pair offers FREE promotional training at its Seattle headquarters for WAVE Integrators and WAVE Solution Developers.
